IN LOVING MEMORY

Daniel Simonis

19 July 1960 - 13 June 2026

Danny Boy. Thank you for 22 years of friendship... we have shared so many good memories! I loved Monday mornings... you always shared with me pictures of your grandchildren... you were so very proud of them. You had the biggest smile on your face when you talked about your family!

Our shared love for antiques and collectables made it so much fun to see what you bought on the weekend at the market. I will always treasure the special items you gave me. It will enjoy a proud and special place in my home.

I loved your enthusiasm for your hobbies; you're racing and everything about the racetrack... it made you giggle and your passion was very infectious.

The one thing that stood out most was your loyalty to Linkqage... we had to "force" you to take leave... you even visited us, your sales family... straight after your heart operation. We will never forget it...

It is impossible to say thank you... but know that we appreciate all you have done for us, from the depth of our hearts.

But it is even harder to say good-bye... I still look up every afternoon at 5 PM to see why you are not at my desk for our daily catch-up... positive or negative... you needed to share your day with us.

Adieu Mr Simonis! You will be missed, my friend!

- Erika

As many of you will know, Daniel enjoyed most of his Saturday's at the Milnerton Flea Market. He enjoyed trading and negotiating literally anything. I was lucky enough to accompany him on one of these expeditions, and what I witnessed was nothing short of a masterclass in the art of negotiation.

Daniel's preparation was meticulous. Before even stepping foot into the market, he would carefully distribute his cash across his pockets — a R50 note here, a R20 there, R100 in another — with the remainder safely tucked away in his back pocket and moon bag. The moment he stepped onto that market, his face lit up like a child on Christmas morning.

"Daniel had his eye on a mat — R35 each, but he wanted two"

Now, Someone else would have simply done the maths and handed over R70. Not Daniel. Without missing a beat, he looked the seller square in the eye and said, with complete sincerity. "I only have R50 left in my pocket." And the best part? He was absolutely telling the truth.

PS: I think he already talked St. Peter down on the entrance fee.

- Vincent

I have been working with Daniel at Linkqage for 18 years. Daniel was one of the kind , one of the most stubborn people I have ever met. But behind that tough exterior was a man with a very big heart. Always willing to help people, always wanted to help everyone. Daniel was very loyal to the company and the directors, to a point that they had to force him to take his annual leave, because he had too much annual leave days left. Daniel also had a unique trait that many of us will remember with a smile—he never liked throwing anything away. Whether it was old parts, tools, or what most of us would call junk, Daniel always believed it might come in handy one day. I joked that he had enough parts in his garage to build a space shuttle.

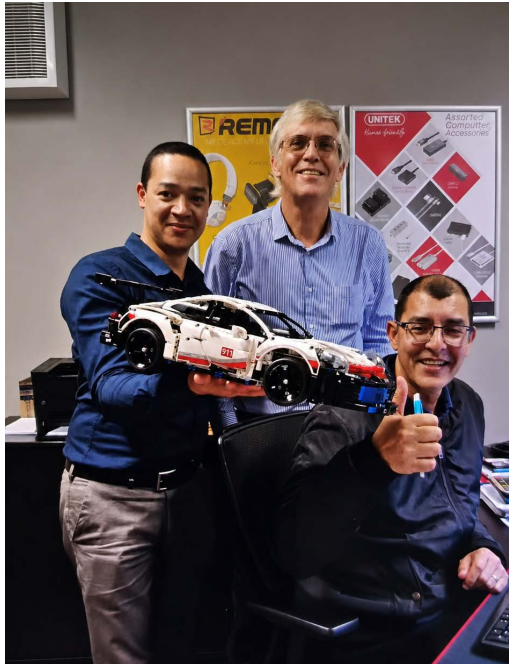

LinkQage will surely not be the same without Danny Boy.

He will always be remembered and most certainly Daniel will surely be missed by many.

- Errol

Daniel will be missed. There was nothing fake about him "What you see is what you get" & he was always the first one to apologise. It was hard not to love him :-(

- Faith

Daniel used to call me on a weekend and say – “Meet me at the Unit”, then we would spend the morning packing out his storage rooms and he would say “Take what you can, we can come again.”

He gave me his entire stamp collection which I am treasuring for my daughter.

Daniel had the best of hearts and always looked out for people less fortunate than him.

*Thank you.
He will be dearly missed.*

- Angie

I have been working with Daniel nearly 22 years. He was such a person who never wanted to mail me for the courier goods, he always brought it to me in person to see it gets done. But when he did mail it was short and sweet. I always admired him for the way he did things, and I will always miss his voice. He had a whole room just for cars and loved his cars and so did I. Also, kind and helpful. Thank you Daniel

for the time, may your wings spread even wider in heaven and may your light always shine bright and over your loved ones. ‘Til we meet again in heaven.

- Roenel

I loved how Danny would routinely pull me aside and remind me of how far I have come at Linkqage - as a person and a mother.

He would notice when I was having an off day and always checked in with me and shared some words of wisdom. He was very thoughtful and he had a very good heart. I will miss him dearly.

- Chandra

I’m really saddened about my friend and colleague’s passing. We had a special relationship filled with constant banter and not a single dull moment. Not a day went by without us sharing a laugh, and I’ll always cherish those memories.

- Clayton

We would argue a lot about him being stubborn and fast to react to a situation. But he will always apologize and made a joke of it afterwards. He knew his faults and tried to do better. He was the one person you knew where you stood with.

I will miss you Danny

- Martha

Toe ek vir Daniel die eerste keer by LinkQage ontmoet het, het sy goeie hart dadelik uitgestaan. In die nege maande wat ons saam gehad het, het hy soveel meer as net ‘n kollega geword—hy was ‘n ware vriend, ‘n mentor, en vir my amper soos ‘n pa.

Dit was ‘n kort tydjie, ‘n blitsliggie in die ewigheid, maar dit was gevul met soveel onskatbare goeie tye. Wat ek altyd die diepste in my hart sal bewaar, is hoe lekker ons saam kon lag. Selfs op die allerbesigste, moeilikste dae het sy unieke humor en opregte warmte die donker weggestoot en alles ligter gemaak. Sy teenwoordigheid was soos ‘n veilige hawe in ‘n besige wêreld.

Ek is ontsettend dankbaar vir daardie nege maande se kosbare vriendskap, die lewenswysheid wat hy so vrylik met my gedeel het, en al die lekker, uit-die-maag-uit lagbuie wat ons saam geniet het. Dit voel onregverdig dat die tyd so min was, en die leemte wat hy agterlaat is onmeetbaar groot. Linkqage gaan stil wees sonder sy stem, en ons dae ‘n bietjie doffer sonder sy glimlag.

Daniel, jy het diep spore in my lewe getrap. Jou goedheid en jou liefde sal altyd by my bly, en ek sal die herinneringe aan jou soos ‘n skat bewaar.

Die stryd is nou verby, die pad is voltooi. Jy kan nou uiteindelik sag en in volkome vrede rus, my liewe vriend !! Tot ons mekaar weer sien.

- Johan

Daniel would randomly call me over to his desk and talk about life. This was everyday for almost 10 years.

I enjoyed listening to his stories. I will miss our chats so much.

Whenever there was a disagreement within the sales team, I would always take Daniel’s side.

Daniel was “what you see, is what you get” – with a big heart.

- Megan

Daniel was always kind enough to share his coffee whenever I’d ask. He had a soft heart at times. Once I complimented him on a shirt he had on, the next week he bought me the exact same shirt.

- Wafeeq

*I will miss his grumpiness so much.
Love you forever.*

- Ruth

ECOFLOW

River 3 UPS Portable Power Station

UPS-EF-RIVER3-10MS

The EcoFlow RIVER 3 UPS Portable Power Station is a compact backup power solution for home, office, travel and outdoor use. With a 245Wh LiFePO4 battery, 300W pure sinewave AC output and ultra-fast <10ms UPS switchover, it keeps routers, laptops and essential electronics powered when needed. Featuring X-Boost technology, quiet operation below 30dB, rapid 1-hour charging and advanced battery protection, it delivers reliable everyday and emergency power.

*Limited Availability

R4 138 . R4 759 incl. VAT

Delta 3 Plus UPS Portable Power Station

UPS-ECOFLO-DELTA3-P

The EcoFlow DELTA 3 Plus Portable Power Station is a compact, reliable power solution for home backup, outdoor use, RV travel and workspaces. With a 1024Wh capacity, 1800W AC output, fast AC and solar charging, 11 output ports, quiet operation and expandable capacity up to 5kWh, it delivers dependable power wherever you need it. Its portable design makes it easy to keep essential devices and appliances running during outages, travel or off-grid adventures.

R13 769 . R15 731 incl. VAT

Delta Pro UPS Portable Power Station

UPS-ECOFLOW-DELTAP-3

The EcoFlow DELTA 3 Pro Portable Power Station is a high-capacity power solution built for reliable home backup, business use, outdoor setups and off-grid power needs. With a 4kWh capacity, 4000W output and durable LiFePO4 battery technology, it can support larger appliances and demanding essentials during outages or remote use. It also features 10ms UPS backup, quiet operation, smart app control and expandable capacity up to 12kWh, making it a dependable choice for keeping your home, workspace or adventure powered.

Wave 3 Add-On Battery
UPS-EF-AIRCON-EB

The EcoFlow WAVE 3 Add-on Battery extends the runtime of the EcoFlow WAVE 3 Portable Air Conditioner for reliable off-grid cooling and heating. Featuring a 1024Wh LiFePO4 battery, it provides long-lasting energy for camping, caravans, RVs, cabins and outdoor adventures. With a compact slide-on design, solar, vehicle and AC charging, IP65 protection and up to 4000 charge cycles, it delivers dependable portable power for demanding outdoor use.

R9 386 . R10 794 incl. VAT

12W Power Hat
HAT-ECOFLOW-USB

The EcoFlow 12W Power Hat combines advanced solar charging technology with premium sun protection, making it the ideal companion for hiking, camping, fishing, beach outings and outdoor work. Integrated high-efficiency solar panels provide continuous charging on the move, while the UPF50+ wide-brim design helps shield you from harsh sunlight. Lightweight, foldable and IP65 rated for outdoor durability, the Power Hat keeps your devices powered and your adventures going wherever the day takes you.

R812 . R934 incl. VAT

EcoFlow PowerOcean Single-phase

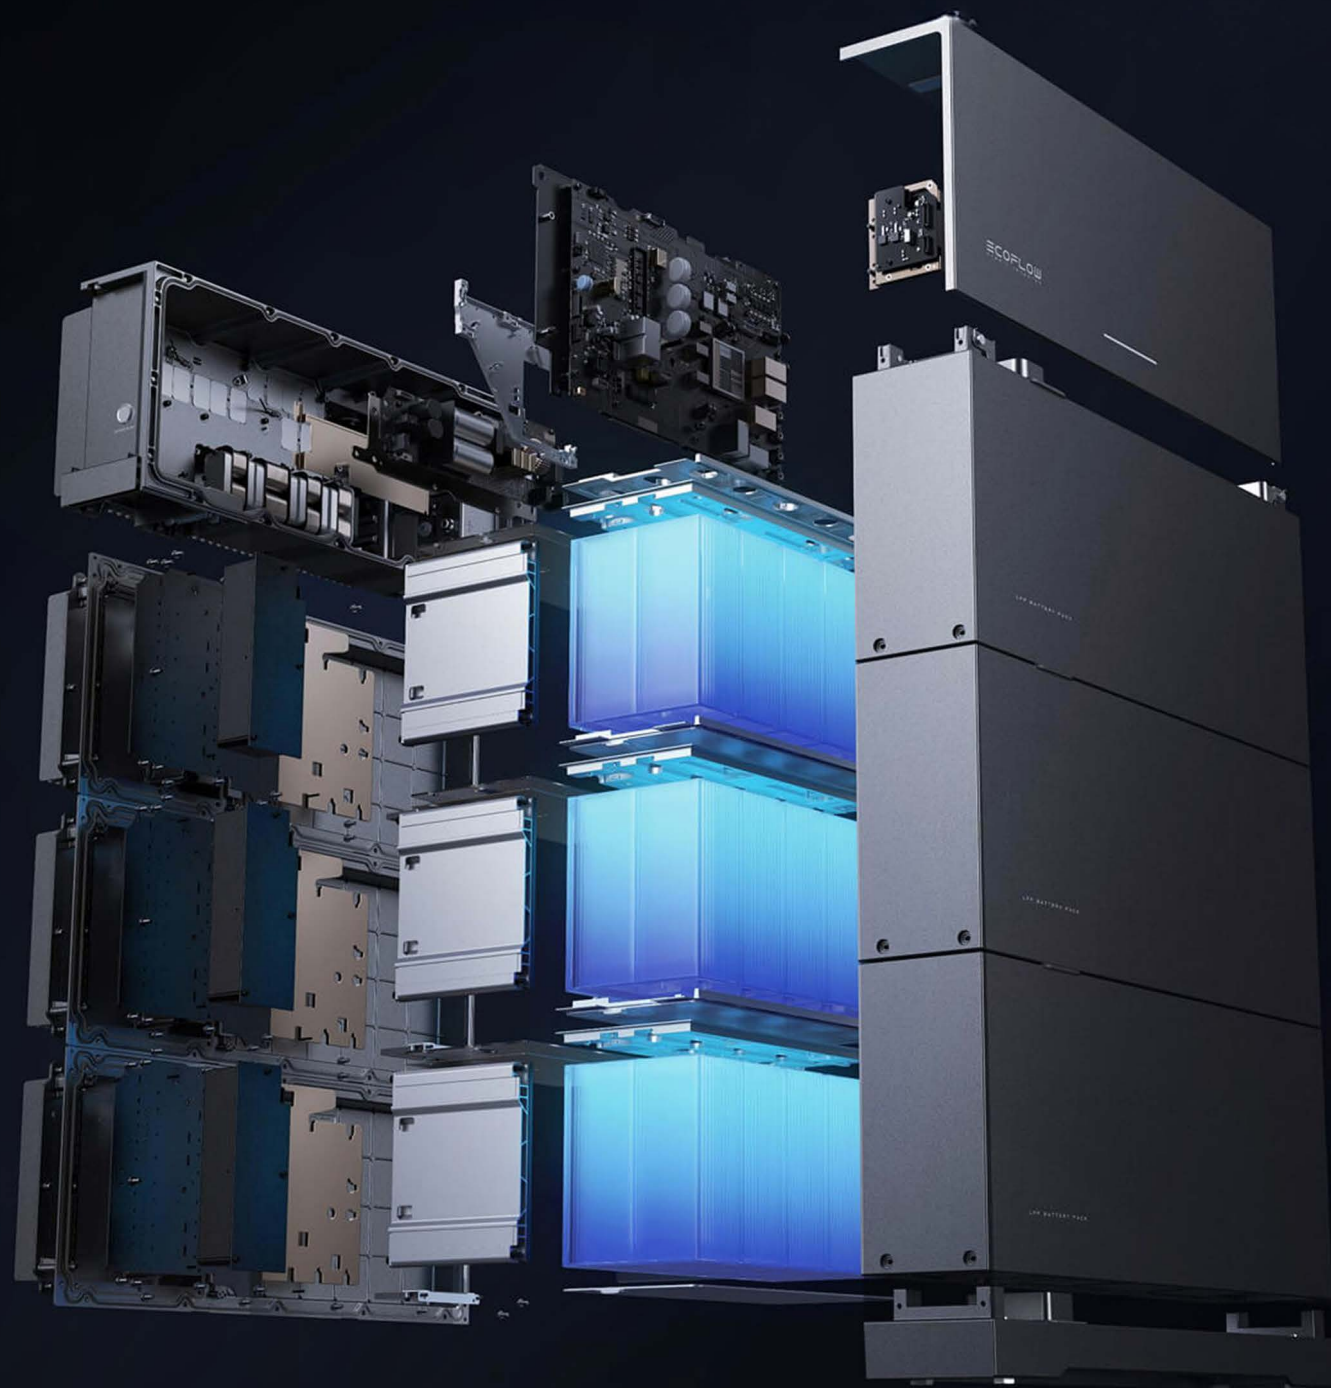

The EcoFlow PowerOcean Home Energy Ecosystem is a premium solar storage solution designed to help home owners take greater control of their energy usage, reduce reliance on the grid and maintain reliable backup power during outages. Built around advanced LFP battery technology, PowerOcean delivers long-lasting performance, enhanced safety and flexible scalability for a wide range of residential energy needs.

Designed for both everyday efficiency and emergency preparedness, the PowerOcean range includes single-phase, three-phase and PowerOcean Plus three-phase solutions. The single-phase system provides up to 6kW of backup output, making it ideal for keeping essential household appliances running when grid power is unavailable. For larger homes or more demanding energy requirements, the three-phase system offers up to 12kW backup power, 20ms switchover time and whole-home energy support. PowerOcean Plus takes performance even further with up to 40kW PV input and up to 29.9kW AC output, making it suitable for properties with larger or more complex rooftop solar installations.

The system uses modular EcoFlow LFP battery packs with over 6,000 charge cycles, 95% depth of discharge and IP65-rated protection for reliable indoor or outdoor installation.

Its plug-and-play battery design simplifies installation and future expansion, while the integrated Battery Management System helps protect against overcurrent and overcharging. For added peace of mind, the battery system also includes an active fire prevention module and auto heating support to help maintain performance in changing conditions.

With smart app monitoring, users can track solar generation, battery storage and household energy usage in real time. Dynamic tariff support also allows the system to work with compatible energy providers, helping users plan energy purchases more efficiently and maximise potential savings. Combining powerful backup performance, intelligent control and a sleek, weather-resistant design, EcoFlow PowerOcean is a future-ready home energy solution built for safety, independence and long-term solar efficiency.

LOG-920-003161

The MK220 Compact Wireless Keyboard and Mouse Combo is a space-saving wireless set designed for everyday work, study and home use. Its compact keyboard layout helps save desk space while still providing the keys needed for daily typing. With reliable 2.4GHz wireless connectivity, plug-and-play USB setup and a wireless range of up to 10 metres, the MK220 keeps your workspace neat and cable-free. Long battery life of up to 24 months for the keyboard and up to 12 months for the mouse makes it a practical choice for busy workstations.

USB Type-C to 5Gbps Ethernet Adapter

UI343A
The UI343A USB Type-C to 5Gbps Ethernet Adapter is designed to add fast, stable wired network connectivity to compatible laptops, tablets and USB Type-C devices. With RJ45 Ethernet speeds up to 5Gbps and backward compatibility with 10/100/1000/2500Mbps networks, it is ideal for file transfers, video calls, streaming and professional workstations. Its compact aluminium alloy design, 15cm cable and driver-free compatibility make it a practical networking adapter for home, office and mobile use.

R395 . R454 incl. VAT

USB4 Male to Female Adapter

A1038GY
The UNITEK A1038GY01 USB4 Male to Female Adapter is designed to protect USB Type-C ports and reduce cable wear while maintaining high-performance connectivity. It supports up to 240W charging, 40Gbps data transfer and 8K @60Hz video output when used with compatible USB4 devices and cables. With a compact aluminium alloy housing and space grey finish, this adapter is ideal for laptops, tablets, docks, displays and everyday USB Type-C setups.

R65 . R75 incl. VAT

uHub H6+ 6-in-1 USB Type-C Hub with PD 100W

D1113C
The D1113C uHUB H6+ is a compact 6-in-1 USB Type-C hub designed to expand connectivity for laptops, tablets and USB Type-C devices. It adds HDMI, USB Type-A, Gigabit Ethernet and USB Type-C Power Delivery through one portable adapter. With 4K @30Hz HDMI output, three USB Type-A 5Gbps ports, Gigabit Ethernet and up to 100W PD pass-through charging, the uHUB H6+ is ideal for workstations, presentations, travel and everyday productivity.

R375 . R431 incl. VAT

HDMI to USB Type-C Adapter

V1187B
The V1187B HDMI to USB Type-C Adapter is designed for connecting HDMI source devices to compatible USB Type-C displays, laptops, tablets and monitors. Supporting up to 4K @60Hz resolution, it delivers clear, smooth visuals for presentations, streaming, gaming and video sharing. With plug-and-play setup, HDCP support, Dynamic HDR support and mirror or extend display modes, this compact adapter is a practical solution for home, office and entertainment use. Please note that it supports one-way HDMI to USB Type-C transmission only.

Enhance your E-Commerce Platform

LinkQage Online Product Feed

Simplify the way you compile your online catalogue with real-time pricing, availability, product titles, images and features today!

Benefits of a Live Product Feed:

-  Full Product Catalogue
-  Live Pricing
-  Stock Availability
-  Comprehensive Product Details

Request your access [here](#) and start receiving your feed subject to approval.

We are happy to announce several exciting enhancements to our live product feed services.

Stock Feed Registration Update

To improve security and provide additional functionality, access to our Product Pricelist will soon require user registration and login credentials.

What's New?

As part of this update, we are introducing:

Additional product information columns on the feed URL.
A more detailed Excel/CSV export with enhanced product data such as additional images.
Improved access management and security.

Customers who have already registered via our online application form will automatically receive a welcome email with further login information.

All other customers currently receiving the feed are requested to register on the Pricelist URL they are currently using. Alternatively Request Access [here](#)

New Product API Now Available

We are excited to announce the release of our Product API Feed, now available on request.

Request API Access [here](#)

Why use the Product API?

The API provides a more powerful and flexible way to integrate our product catalogue directly into your systems, including:

- Real-time stock availability for accurate inventory updates.
- More detailed product listings with richer product information.
- Customisable filtering options to retrieve only the products or data relevant to your business.
- Automated data synchronisation without manual imports or downloads.
- Faster and more reliable integration with e-commerce platforms and ERP systems.

The Product API is ideal for customers looking to automate their product management and provide up-to-date stock information to their teams and customers.

WE SINCERLY THANK YOU FOR YOUR CONTINUED SUPPORT
